HASLER'S IM330

THE PERFECT OFFICE MAILING SOLUTION

Maximizing efficiency in your mail operations is a key component in ensuring professional communications. The best way to achieve those goals is the Hasler IM330 Intelligent Mailing solution. The IM330 makes it simple to weigh, rate, post and track your mail with accuracy. And, it's amazingly easy to use, with a level of convenience that more than meets your mailing needs.

The IM330's smart and user-friendly technology starts with the powerful, semi-automatic feeder and integrated weighing platform. Its features, functionality and desktop data access will simplify your mailing tasks and provide effective control of mail-related costs... all at the touch of a button.

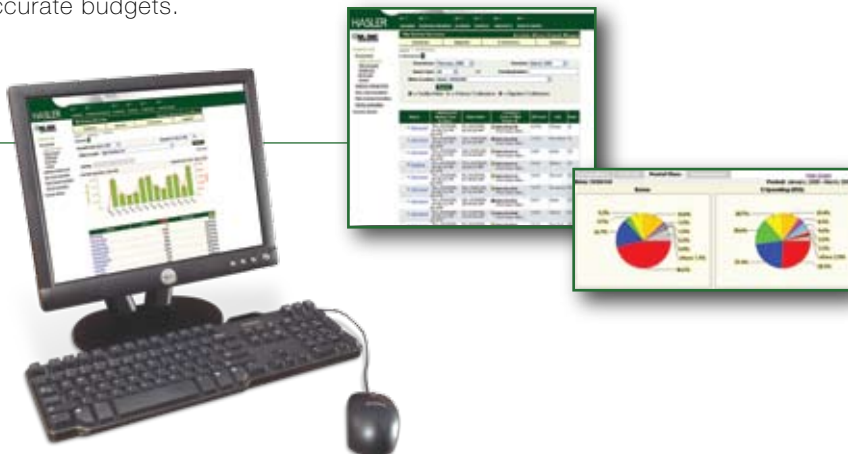

SIMPLE AND CONVENIENT PROCESSING

Process your mail quickly and easily using the IM330's built-in, space saving weighing platform. Simply place your mail on the weighing platform and the rate is automatically calculated. Remove the envelope and "Smart Start" automatically starts the power feeder – the IM330 is ready when you are.

MONITOR, TRACK AND CONTROL POSTAGE COSTS

Your business needs to efficiently manage and control postal expenditures. Intelligent Mailing from the IM330 gives you online access to mail-related information. Monitor and track postage, mail class and department usage to effectively control expenses and develop more accurate budgets.

A WIZARD AT SELECTING RATES

No more confusion selecting postal rates. The IM330 Rate Wizard walks you step-by-step through the process of choosing the right rate and combination of USPS® special services. It also offers rate shortcuts for quick selection of commonly used rates, improving and simplifying the entire mailing process.

DON'T RUN OUT OF INK

Intelligent Mailing also means efficient ink management. The IM330 uses a long-life cartridge and minimizes ink usage by printing a smaller, USPS compliant IBI Lite indicia. "Low ink" email alerts ensure that you don't run out of ink, keeping your mailing process up and running. And the IM330's quick access cartridge design means changing ink has never been easier.

MAKING A LASTING IMPRESSION

Impressions make a difference. Let your mail reach out to customers with a level of professionalism that enhances your business image. The IM330 lets you select customized or standard advertising slogans. Or design a text message to personalize and reinforce communications and promote customer relations.

HASLER ADDS VALUE TO YOUR MAIL PROCESS

The IM330 allows for convenient online access to your mailing information right from your desktop, providing simpler and more effective management of your mail communications. This becomes a valuable tool for increasing efficiency, productivity and cost savings through better control of various mailing functions – transforming complicated tasks into simple ones.

MORE FEATURES, MORE FUNCTIONALITY, MORE SOLUTIONS
