

AUTOMATIC FOLDING SOLUTION FOR
GREATER FLEXIBILITY AND EFFICIENCY

REDUCE COSTS AND ENHANCE PRODUCTIVITY FOR YOUR FOLDING APPLICATIONS

The fully automatic HF75 Document Folder is the perfect system for small to mid-size businesses requiring increased productivity. Law firms, healthcare facilities, schools, churches and many other offices will see their mail processing greatly enhanced. And the HF75 is the perfect solution for direct marketing and administrative mailings requiring common folds such as: letter, z-fold, single, gate, fold out and double parallel folds.

The robust HF75 increases productivity with an easy two-step process. Just select the pre-programmed fold setting and press start. It's that simple. You're guaranteed tight, crisp and professional folds every time. Its unique and highly productive telescoping out-feed stacker gives you unmatched output ability and keeps up to 500 folded documents in a neat and sequential order. The HF75 enables users to conveniently fill the in-feed hopper and let it completely run out before removing folded documents for maximum unattended operation.

To eliminate tedious counting tasks and maximize productivity, the HF75 features AutoBatch™. This unique batch counting system enables operators to key in a predetermined number of sheets to be pulled into sets with a programmed delay between each set for easy paper handling.

With a centrally located control panel for quick set up and operation, the HF75 has the flexibility to process a wide variety of paper sizes up to 17" in length and 12¼" in width. Its dedicated multi-sheet feeder gives operators the ability to fold up to three 20 lb. sheets of stapled or unstapled paper at the same time. And it has the ability to customize fold jobs in virtually any configuration requiring up to two folds, with cross-folding versatility that allows additional folds in a second pass. Best of all, the HF75's compact size allows it to easily fit on any tabletop.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED PRODUCTS AND SERVICES THAT COMPLETE YOUR TOTAL MAILING SOLUTION

Today's fast-paced office environment requires your mailing operations to be as intelligent as the rest of your business. More than ever, you need a total solution that provides the capabilities to meet all your demands, while giving you control and transparency of every mail-related function.

Hasler's HF75 Document Folder will dramatically increase office efficiency by allowing you to operate at peak performance. And to truly maximize productivity and efficiency, consider integrating a powerful Hasler address printer, high-speed tabber, or a digital mailing system into your mailing operations. Each of these products will add processing speed, enhanced performance and a professional appearance to your mail.

Intelligent mailing ensures that your entire mail process operates faster, simpler and more reliably. Hasler has the total mailing solution to meet all your important processing needs, today and as you change and grow in the future.
